Motors – Car Dealership Business Wordpress Theme

Powered by StylemixThemes

www.stylemixthemes.com

1. Getting Started

To install this theme you must have a working version of WordPress already installed. For information regarding the installing of the WordPress platform, please see the WordPress Codex - http://codex.wordpress.org/Installing_WordPress

1.1. Installation

When you are ready to install a theme, you must first upload the theme files and then activate the theme itself. The theme files can be uploaded in two ways:

- **FTP Upload:** Using your FTP client, upload the non-zipped theme folder into the /wp-content/themes/ folder on your server.
- **WordPress Upload:** Navigate to Appearance -> Add New Themes -> Upload. Go to browse, and select the zipped theme folder. Hit “Install Now” and the theme will be uploaded and installed.

Once the theme is uploaded, you need to activate it. Go to Appearance -> Themes and activate your chosen theme.

After that you need to install and activate the pre-installed plugins:

1. WPBakery Visual Composer
2. Woocommerce
3. STM Post Type
4. Breadcrumb NavXT
5. Revolution Slider
6. Contact Form 7
7. STM Vehicles Listing
8. MailChimp for WordPress Lite
9. Instagram Feed

1.2. Activate the theme and Import the demo content

After completing installation of the theme, you need to activate your product under **Motors -> Product** registration following these instructions:

1. Click on this [Generate A Personal Token](#) link. **IMPORTANT:** You must be logged into the same Themeforest account that purchased Motors. If you are logged in already, look in the top menu bar to ensure it is the right account. If you are not logged in, you will be directed to login then directed back to the Create A Token Page.
2. Enter a name for your token, then check the boxes for **View Your Envato Account Username, Download Your Purchased Items, Verify Purchases You've Made and List Purchases You've**

Motors – Car Dealership Business Wordpress Theme

Powered by StylemixThemes

www.stylemixthemes.com

Made from the permissions needed section. Check the box to agree to the terms and conditions, then click the **Create Token** button.

3. A new page will load with a token number in a box. Copy the token number then come back to this registration page and paste it into the field below and click the **Submit** button.
4. You will see a green check mark for success, or a failure message if something went wrong. If it failed, please make sure you followed the steps above correctly.

The screenshot shows the WordPress dashboard for the 'Motors' theme. The left sidebar has a dark background with various menu items like Dashboard, Motors, Support, Plugins, Demo import, System status, Posts, Media, Pages, Comments, Sidebars, Listings, Contact, WooCommerce, Products, Appearance, Plugins, Users, Tools, Visual Composer, Settings, MailChimp for WP, and Instagram Feed. The main content area has a light blue header with the title 'Welcome to Motors' and a small car icon. Below the header, there's a brief introduction about the theme and a link to 'Watch Our Quick Guided Tour!'. A navigation bar at the top of the content area includes 'PRODUCT REGISTRATION', 'SUPPORT', 'PLUGINS', 'INSTALL DEMOS', 'THEME OPTIONS', and 'SYSTEM STATUS'. Under 'PRODUCT REGISTRATION', there's a text input field with a key icon, a 'SUBMIT' button, and a note: 'Thank you for choosing Motors! Please register it to enable the Motors demos and theme auto updates. The instructions below must be followed exactly.' Below this, there's a section titled 'Instructions For Generating A Token' with four numbered steps corresponding to the list above. Step 4 ends with 'You will see a green check mark for success, or a failure message if something went wrong. If it failed, please make sure you followed the steps above correctly.'

Then you can install included plugins under **Motors -> Plugins** (if you have not installed them):

The screenshot shows the WordPress dashboard for the 'Motors' theme, specifically the 'Plugins' section. The left sidebar is identical to the previous screenshot. The main content area shows a table of installed plugins. At the top of the table, there are links: 'All (12) | To Install (11) | To Activate (1)'. The table has columns for 'Plugin', 'Source', 'Type', 'Version', and 'Status'. The data in the table is as follows:

Plugin	Source	Type	Version	Status
Bookly Lite Install	WordPress Repository	Required		Not Installed
Breadcrumb NavXT Install	WordPress Repository	Required		Not Installed
Contact Form 7 Install	WordPress Repository	Required		Not Installed
Custom Icons by Stylemixthemes Install	Pre-Packaged	Required	Minimum required version: Available version:	1.0 Not Installed 1.0
STM Importer Activate	Pre-Packaged	Required	Installed version: Minimum required version:	3.0 Installed But Not Activated 3.0
STM Post Type Install	Pre-Packaged	Required	Minimum required version: Available version:	3.0 Not Installed 3.0

1.3. Setting up the Homepage

To set up the homepage you must create a new page, you can do so by navigating to Pages > Add New. The title for this page can be up to your liking. Under **Settings -> Reading** or **Appearance -> Customize -> Site Settings -> Static Front Page** please setup the new Homepage.

Front page displays

Your latest posts

A static page (select below)

Newsroom

Actually you can set any page to be your homepage. Once it's created you can compose your homepage layout. The design layout is created under Bootstrap framework which is split into 12 columns grid. Each widget has its own maximum and minimum widths, so depending on that you can work out the layout for each page.

As you can see the homepage just like any the page is now 100% constructible out of the modules we have in Visual Composer. The homepage can be created by any element in Visual Composer.

To view the short manual on how to use the Visual Composer, please follow this link:

http://codecanyon.net/item/visual-composer-page-builder-for-wordpress/full_screen_preview/242431

The detailed documentation of Visual Composer can be found here also -

<http://vc.wpbakery.com/video-tutorials/>

Motors – Car Dealership Business Wordpress Theme

Powered by StylemixThemes

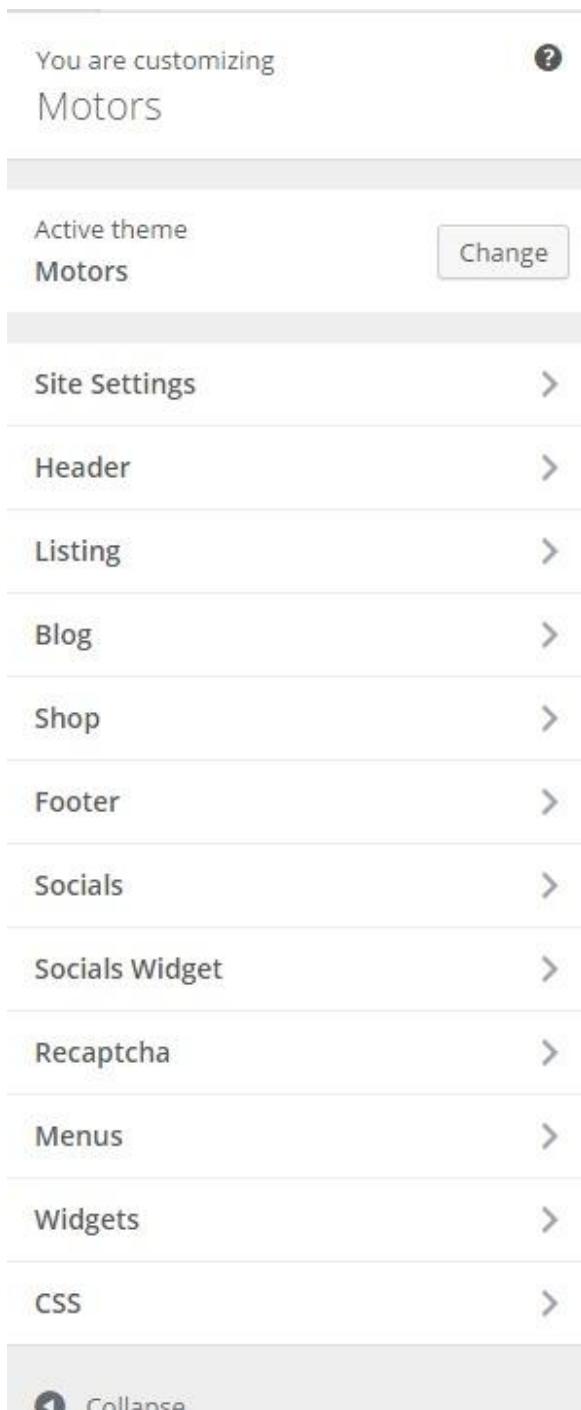

www.stylemixthemes.com

2. Theme Features

2.1. Theme Customization

Customize options depends on which Layout are you using, so please note some of Customize options might be NOT work for your current Layout.

WordPress Customize allows you to setup the general styling of the website visually. In WordPress menu go to **Appearance > Customize**. Here you can setup most important options of your theme.

Motors – Car Dealership Business Wordpress Theme

Powered by StylemixThemes

www.stylemixthemes.com

Site Settings:

- **Logo & Title:** You can setup basic site options like: Site title, Lagline, Logo & its dimensions and Favicon.
- **Static Front Page:** You can select default **Front** and **Blog** pages here.
- **Style & Settings:** There are Color Skins and default Layout options. Here you can select one of 7 basic color schemas or set your custom colors, enable/disable Boxed version and show/hide Frontend Customizer.

Header:

- **Top Bar:** Here you can enable/disable Top Bar & WPML Switcher and add your company office addresses, contact information and working hours.
- **Header Appearance:** You can enable/disable Header Search form & Sticky menu and select one of the basic header styles.

Archive Pages: Choose archive pages layout, sidebar and its position.

Footer:

- **Layout:** Here you can change the footer logo & its dimensions, the copyright text and split the footer into widgets. Also specify the number of widget areas.
- **Footer Socials:** Here you can select displayable social icons.

Post Types: You can setup/change Title, Plural Title, Rewrite URL and Icon for custom post types

Typography: Set up the fonts out of free google fonts. Besides this you can setup font weight, font size and line height also.

Socials: You can add your company social URLs here.

Custom CSS: Here you can add your custom styles.

Menus: You can add/edit menus here.

Widgets: You can set up the widgets into the precreated areas.

2.2. Footer area setup

The footer is the same on all pages. You can see whole options via **Appearance -> Customize -> Footer -> Main settings**.

Motors – Car Dealership Business Wordpress Theme

Powered by StylemixThemes

www.stylemixthemes.com

The screenshot shows the WordPress Customizer interface for the 'Footer' settings. On the left, a sidebar displays various footer-related options: 'Customizing > Footer Main settings', 'Footer background color' (set to black), 'Widget Areas' (set to 4), 'Footer copyright Enabled' (checked), 'Footer Copyright background color' (set to black), 'Copyright' (set to © 2015 <a target=_blank href=http://), 'Copyright Socials' (with several social media checkboxes checked: Facebook, Twitter, VK, Instagram, Behance, Dribbble, Flickr, Git, LinkedIn), and a 'Collapse' button. The main preview area shows the 'WELCOME TO THE MOTORS WORLD' page with a yellow header and a grid of cars. Below the header, there are four columns: 'MOTORS DEALERSHIP' (text: 'As the leading dealer in Chicago, IL, we are confident that we will save you time and money. Above all else, we strive to deliver a superior experience.'), 'PHOTO GALLERY' (with three small images), 'LATEST BLOG POSTS' (text: 'The Tesla Model S Isn't the first truly autonomous car on the road...'), and 'SOCIAL NETWORK' (with icons for Facebook, Twitter, Instagram, Google+, and YouTube). At the bottom of the preview, it says '© 2015 Stylemix Themes | Trademarks and brands are the property of their respective owners.'

Here you can set up:

- Footer logo and its dimensions;
- Count of additional Widget Areas;
- Footer Text;
- Copyright;

Besides this you can add your custom scripts through **Appearance -> Customize -> Footer -> Additional Scripts**.

The screenshot shows the 'Additional Scripts' section of the WordPress Customizer. It features a large text input field containing the JavaScript code 'alert("hello");'. Below the input field, a note reads: 'Enter in any custom script to include in your site's footer. Be sure to use double quotes for strings.' A 'Save' button is visible at the top right.

Also you can set other areas up on the Widgets page (Appearance > Widgets) and choose from the suggested widgets. Please see the attached screenshot.

Motors – Car Dealership Business Wordpress Theme

Powered by StylemixThemes

www.stylemixthemes.com

The screenshot shows the WordPress Widgets screen. On the left, the sidebar menu is open, with 'Appearance' selected and 'Widgets' highlighted. The main area displays a grid of available widgets under the heading 'Available Widgets'. The grid includes: Akismet Widget (described as displaying spam comments), Archives (a monthly archive of posts), Breadcrumb NavXT (adds a breadcrumb trail), Calendar (a calendar of posts), Categories (a list or dropdown of categories), Custom Menu (adds a custom menu to the sidebar), Language Selector (language selector for MailChimp), MailChimp Sign-Up Form (displays a MailChimp sign-up form), Meta (links to login, RSS, and WordPress.org), Monster (tests multiple widgets at once), Multilingual Text (multilingual arbitrary text or HTML), and Pages (a list of site pages). To the right, two sidebar sections are shown: 'Primary Sidebar' containing 'Footer' widgets like STM Text, Text: Photo Gallery, and Text: Latest Blog posts; and 'Footer' containing Socials, MailChimp Sign-Up Form, Text: Sales Hours, Text: Service Hours, and Text: Parts Hours.

PS: Please note the Demo Content doesn't contain these widgets. So they need to be added manually.

2.3. How to set up the sidebar

In this theme we paid special attention to Sidebars for your biggest convenience and on multiple previous requests.

We have two types of sidebar: right sidebar and left sidebar, which can be selected for both of archive and single posts/pages.

In addition to that, you can add/create a new sidebar with VC Widgets/Elements, in this case you will need to go here:

The screenshot shows the WordPress Sidebars screen. The sidebar menu is open, with 'Appearance' selected and 'Sidebars' highlighted. The main area displays a list of existing sidebars. The list includes: 'Page sidebar' (published, 2015/11/27), 'Shop Sidebar' (published, 2015/11/20), and 'Blog sidebar' (published, 2015/11/17). There are also two rows for 'Title' (one for each sidebar) and a 'Bulk Actions' button at the bottom.

Edit or create a new sidebar, and add any sections you need by means of Visual Composer

Motors – Car Dealership Business Wordpress Theme

Powered by StylemixThemes

www.stylemixthemes.com

The screenshot shows the WordPress dashboard with the 'Edit Sidebar' page for a 'Page sidebar'. The left sidebar menu is visible, showing options like Dashboard, Posts, Media, Pages, Comments, Sidebars, All Sidebars, Add New, Listings, Contact, WooCommerce, and Products. The 'Sidebars' option is selected. The main content area is titled 'Edit Sidebar' with a 'Add New' button. Below it is a title 'Page sidebar'. A URL 'Permalink: http://motors.stm/sidebar/page-sidebar/' is shown with 'Edit', 'View Sidebar', and 'Get Shortlink' buttons. At the top of the Visual Composer interface are 'CLASSIC MODE' and 'FRONTEND EDITOR' tabs. The main workspace contains a 'STM Media Library' element, which has a green plus sign icon, a pencil icon, and a trash bin icon.

For single pages/posts you can add sidebar via **Widgetised Sidebar** or **STM Sidebar VC element**

The screenshot shows the WordPress dashboard with the 'Edit Page' page for a page titled 'Auto Loan Calculator'. The left sidebar menu is visible, showing options like Dashboard, Posts, Media, Pages, Comments, Sidebars, All Sidebars, Add New, Listings, Contact, WooCommerce, and Products. The 'Page' option is selected. The main content area is titled 'Edit Page' with a 'Add New' button. Below it is a title 'Auto Loan Calculator'. A URL 'Permalink: http://motors.stm/page/auto-loan-calculator/' is shown with 'Edit', 'View Page', and 'Get Shortlink' buttons. At the top of the Visual Composer interface are 'CLASSIC MODE' and 'FRONTEND EDITOR' tabs. The main workspace contains two sidebars: 'STM Auto Loan Calculator' and 'STM Sidebar'. Both sidebars contain the 'STM Media Library' element, which has a green plus sign icon, a pencil icon, and a trash bin icon.

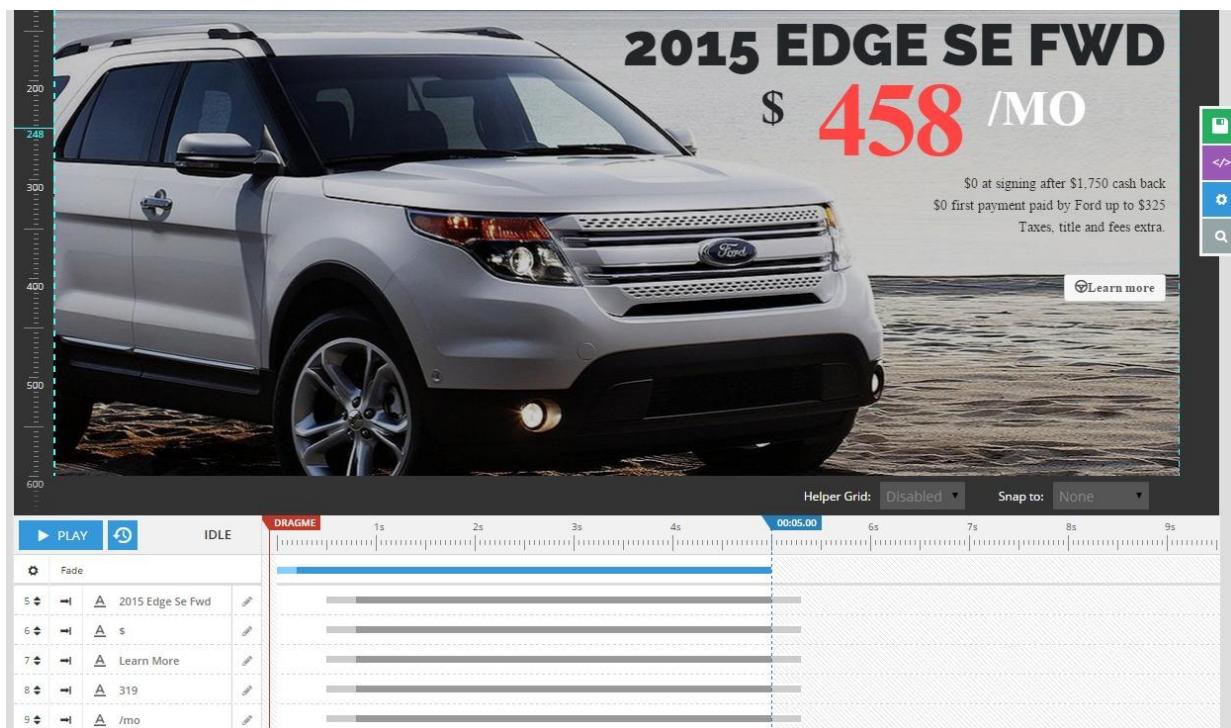

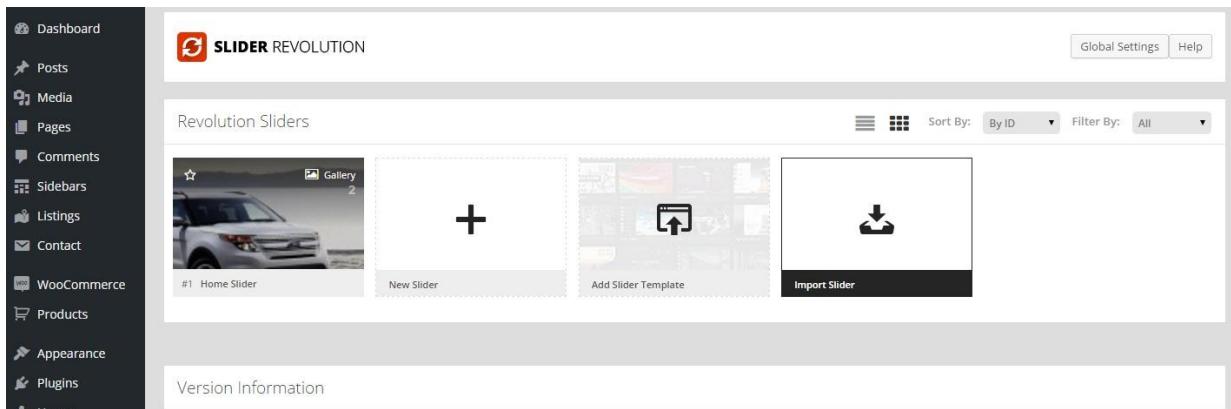

2.4. Adding Images to Revolution slider

You will need to upload various images to the Layer slider. You can add items from Revolution Slider plugin in the WordPress backend. When you go there first you need to create the new Slider, and add new slides.

Motors – Car Dealership Business Wordpress Theme

Powered by StylemixThemes

www.stylemixthemes.com

More detailed manual you can find here - <http://www.themepunch.com/revslider-doc/slider-revolution-documentation/>.

2.5. Menus

There are two navigations on the site – Header menu and Footer menu, so you can adjust them under Appearance - > Menus

This is a standard Wordpress functionality, you can choose from the pages, post categories, or custom links.

Motors – Car Dealership Business Wordpress Theme

Powered by StylemixThemes

www.stylemixthemes.com

The screenshot shows the 'Menus' screen in the WordPress admin. The 'Edit Menus' tab is selected. A sidebar on the left lists 'Pages', 'Posts', 'Listings', 'Custom Links', and 'Format'. The main area shows the 'Menu Structure' for the 'Primary menu'. It includes items like 'Home' (Custom Link), 'Inventory' (Page), 'Standard Inventory' (sub item, Page), 'Standard Inventory Sidebar Left' (sub item, Page), 'Standard Inventory Sidebar Right' (sub item, Custom Link), 'Modern Inventory' (sub item, Page), and 'Modern Inventory Sidebar Left' (sub item, Page). A 'Save Menu' button is at the top right.

3. Content

3.1. Setting up Content Pages and Posts

All pages can be created as simple content pages or built by means of Visual Composer page builder. You will need to first set up the page and then add and set up content blocks. Just add a row and add the modules to row from the Visual Composer dashboard.

The screenshot shows the Visual Composer page builder. At the top, there are tabs for 'CLASSIC MODE' and 'FRONTEND EDITOR'. Below is a toolbar with icons for adding rows, columns, and other elements. The main area contains several content blocks: a 'Revolution Slider' block, an 'STM Car listing tabs' block, two 'STM Icon Box' blocks (one with the text 'Are You looking for a car?' and another with 'Do You want to sell a car?'), and a 'STM Special Offers' block with the text 'SPECIALS'. Each block has its own edit and delete buttons.

Motors – Car Dealership Business Wordpress Theme

Powered by StylemixThemes

www.stylemixthemes.com

Now you can choose how to compose your template. Add Content modules, Testimonials, etc. You have everything to realize your imagination.

We have also included extension packages for Visual Composer. You can use them free.

Just pick the module you like and add it to the row. Then you can edit it.

You can also edit the row background, add video or parallax images to the background. Just click on Row edit icon and you will see the options & features, which are available for this row.

TEXT WIDGET

We know there isn't much more frustrating than being without your vehicle while it gets repaired.

Are you ready to give your car the service it is asking for? Schedule car maintenance or repair right here. Our top-notch service staff can get your car or truck in and out quickly.

Blogs can be posted by someone who has the access to the backend of the site with admin or author role. Anyway that person will be able to log into the WordPress panel and have a user profile.

Default blog layout is grid layout and once you set up an empty page in the theme setting where it is said blog, it will show posts in grid layout.

If you want to have List layout, you will need to create a page and set a template for it named Blog-list.

Motors – Car Dealership Business Wordpress Theme

Powered by StylemixThemes

www.stylemixthemes.com

3.3. Inventory

There is a custom post type to describe listings your company offer via any element visual composer offers you:

For each listing you can specify **description**, standard **Singe Car Page Options** and customizable **Car Options**.

For the Description we use standard Content area with Visual Composer, where you can insert any shortcode you would like to display.

Motors – Car Dealership Business Wordpress Theme

Prices: All Price options can be set up here.

The screenshot shows the 'Car manager' interface with the 'Prices' tab selected. On the left, there's a sidebar with tabs: Details, Options, Features, Prices (which is highlighted in blue), Specials, Images, and Video. The main area contains several input fields and labels:

- Price:** A text input field containing "45000".
- Sale Price:** An empty text input field.
- Regular price label:** A text input field containing "Our price".
- Regular price description:** A text input field containing "Included Taxes & Checkup".
- Special price label:** An empty text input field.
- Instant savings label:** An empty text input field.
- Custom label:** An empty text input field with a note: "This text will appear instead of price".
- Car price form:** A checkbox labeled "Car price form" with a note: "Enable/Disable 'Request a price' form".

Specials: *Special car* for special offers carousel module and *Featured Listing* on Classified layout can be set up under this tab.

The screenshot shows the 'Car manager' interface with the 'Specials' tab selected. The sidebar has the same tabs as the previous screenshot. The main area includes:

- Special offer:** A checked checkbox with a note: "Show this item in 'special offers carousel' module and Featured Listing on Classified layout".
- Special offer text:** An empty text input field.
- Special Offer Banner:** A section with a note: "Banner will appear instead of car image under 'special offers carousel' module." It includes a "No image selected" message and an "Add image" button.
- Enable badge:** A section with a note: "Banner will appear instead of car image under 'special offers carousel' module." It includes an "Enter badge text" input field.
- Badge background color:** A color selection button labeled "Select Color".

Images & Videos: Here possible to set additional images and videos for the Listing.

The name is how it appears on your site.

Slug

The "slug" is the URL-friendly version of the name. It is usually all lowercase and contains only letters, numbers, and hyphens.

Motors – Car Dealership Business Wordpress Theme

Powered by StylemixThemes

www.stylemixthemes.com

Main Inventory page options you can setup via Appearance -> Customize -> Listing. There are three main section like **Inventory settings**, **Single Car Settings** and **Compare**.

The screenshot shows the WordPress customizer interface on the left, displaying settings for the 'Inventory' page. It includes sections for 'Listing archive' (set to 'Inventory'), 'Filter Position' (set to 'Left'), 'Title background' (with a preview image), and various checkboxes for features like 'Show stock', 'Show test drive schedule', 'Show compare', 'Show share block', and 'Show PDF brochure'. On the right, the live preview of the 'INVENTORY' page is shown. The page has a dark header with the 'motors' logo, address, phone number, and social media links. Below the header is a large banner with the word 'INVENTORY'. A sidebar on the left contains 'Search Options' with dropdown menus for Condition, Body, Make, Model, Year, and Transmission. The main content area lists two car models: 'BMW 535i, Navi, Leather, ABS' and 'BMW 328i, Sport Line Body Kit'. Each listing includes a thumbnail image, a title, and a price box.

Also you can add Listings as a tabs or with Filters for any page using custom STM VC elements:

The screenshot shows the Elementor 'Add Element' screen. At the top, there's a search bar with the term 'listing'. Below the search bar is a navigation bar with links: All, Content, Structure, WordPress Widgets, WooCommerce, STM, STM Single Car, STM Widgets, STM Post Partials, and Deprecated. Underneath the navigation, there are two buttons: 'STM Listing Filter' and 'STM Car listing tabs'. These are likely custom Visual Composer elements provided by the theme.

3.4. WooCommerce shop

WooCommerce is the most popular e-commerce plugin for WordPress. Now you can have a shop with all e-commerce features on WordPress.

Before you start adding products, please go through the WooCommerce plugin settings and specify everything you need for your shop:

The screenshot shows the WordPress admin dashboard with the 'Motors' theme active. The left sidebar has a 'WooCommerce' section expanded, containing links for Orders, Coupons, Reports, Settings (which is selected), System Status, and Add-ons. The main content area is titled 'General' under the 'General Options' heading. It includes fields for 'Base Location' (set to 'United States (US) — California'), 'Selling Location(s)' (set to 'Sell to all countries'), 'Default Customer Address' (set to 'Geolocate'), and a note about the MaxMind GeoLite Database. Under 'Currency Options', it shows 'Currency' set to 'US Dollars (\$)', 'Currency Position' set to 'Left (\$99.99)', and thousand and decimal separators both set to '.'. The 'Number of Decimals' is set to 2.

Adding the products: You can easily add new products via Products > Add Product

Just specify all details with the description and shipping details. For a single product you can upload several photos in Product Gallery. More information about the WooCommerce features you can find here: <http://docs.woothemes.com/documentation/plugins/woocommerce/getting-started/>

4. Listing layout features

4.1. New VC custom modules

You can find new added modules under **STM Listing Layout** and **STM Listing Single Car** modules.

The screenshot shows the Visual Composer Element Library interface. At the top, there's a search bar and a navigation bar with tabs: All, Content, Structure, WordPress Widgets, STM, STM Single Car, STM Widgets, STM Post Partials, STM Service Layout (which is highlighted), and an ellipsis. Below the tabs is a grid of modules. In the STM Service Layout column, the 'STM Listing Layout' module is highlighted with a red box. The module description says: 'STM Listing Layout', 'STM Listing Single Car modules', and 'Deprecated'. Other modules listed include Contact Form 7, Row, Text Block, Separator, Separator with Text, FAQ, Single Image, Tabs, Accordion, Custom Heading, GO Button, Widgetised Sidebar, Video Player, Google Maps, Raw HTML, Raw JS, Flickr Widget, Progress Bar, Pie Chart, Round Chart, Line Chart, Empty Space, Post Grid, Media Grid, Post Masonry Grid, Masonry Media Grid, Revolution Slider, Revolution Slider, and STM Auto Loan.

Please note that these modules work only with **Listing Layout** version of the demo content.

STM Listing layout tab contains modules like STM Listing Search (tabs), STM Blog grid, STM Listing tabs style 2 and etc. which are most important in this layout.

The screenshot shows the Visual Composer Element Library interface with the STM Service Layout tab selected. Below the tabs is a grid of modules. In the STM Service Layout column, the 'STM Listing tabs style 2' module is highlighted with a red box. Other modules listed include STM Listing banner, STM Icon Filter, STM Blog grid, STM Listing Search (tabs), STM User/Dealer login/register, STM Posts Available, and STM Add a car.

There are several modules for single Listing post page under **STM Listing Single Car** tab.

The screenshot shows the Visual Composer Element Library interface with the STM Service Layout tab selected. Below the tabs is a grid of modules. In the STM Service Layout column, the 'STM Car Top Info' module is highlighted with a red box. Other modules listed include STM Heading Title, STM Car Gallery, STM Car Details, STM Car Features, STM Car Dealer Info, STM Car Listing Contact Form, STM Similar cars, and STM Pricing Tables.

Listing layout Home page was built use above VC shortcodes. You can also customize this page easily through VC Editor:

Edit Page [Add New](#)

Home page

CLASSIC MODE FRONTEND EDITOR

Visual Composer

The screenshot shows the Visual Composer editor interface for a WordPress theme. The main area displays a hierarchical structure of content blocks. At the top level, there are two 'STM Listing banner' blocks. Below them are two 'STM Icon Filter' blocks. A third 'STM Icon Filter' block is positioned in the middle section. The bottom section contains a 'STM Listing tabs style 2' block, which includes a 'Custom Heading' block with the text 'Free Dealer Price quote' and a 'Text' block with placeholder text 'Lorem ipsum dolor sit amet, consectetur adipiscing elit, sed eiusmod tempor incididunt ut labore et dolore magna aliqua.'. Further down are another 'Custom Heading' block with the text 'News & Reviews' and an 'STM Blog grid' block. A large, empty dashed box is at the bottom, likely a placeholder for a sidebar or additional content.

4.2. Listing Inventory page

You can easily add STM Classic/Modern filter VC module in your inventory page in order to get such result in your Inventory pages.

The screenshot displays the 'Cars for sale' section of the Motors theme. It shows 28 matches for used and new vehicles. Each listing includes a thumbnail image, vehicle details (year, model, condition), mileage, fuel type, engine size, price, and seller information. To the right, there is a sidebar with various filtering options:

- SEARCH OPTIONS:** Condition, Make, Model, Max Mileage, Year, Transmission, Location input field, and a 'Reset all' button.
- SELECT PRICE:** A slider from 5000 to 100000.
- BODY:** Options for Sedan, Coupe, Sport Cars, Pickups, Convertible, Hatchback, Minivan, SUV, Wagon, and Compact.
- FEATURES:** Options for Auxiliary heating, Bluetooth, CD player, and Central locking, with an 'APPLY' button.

Motors – Car Dealership Business Wordpress Theme

Powered by StylemixThemes

www.stylemixthemes.com

Respectively there are different layout for a Single Car page and additional fields like Reviews, Seller info, Car details and Features.

The screenshot displays a single car listing for a 2015 BMW 5 Series. The top navigation bar includes links for HOME, INVENTORY, PRICING, BLOG, and USER, along with social media icons and a green 'ADD YOUR ITEM' button. The main content area shows a large image of the silver BMW 5 Series sedan parked outdoors. To the left of the car is the text 'USED 2015' and 'BMW 5 Series'. To the right is the price '\$45 000'. Below the main image are four smaller thumbnail images showing different angles of the car and its interior. The 'Car Details' section lists the body type as Sedan, mileage as 80 mi, fuel type as Fuel, engine as 3000, transmission as Automatic, drive as 4WD AWD, exterior color as Pearl White, interior color as Multi-pattern, history as CARFAX 1-Owner, stock id as 653093, and VIN as GYFBURH6FP213. The 'Features' section lists various options like auxiliary heating, Bluetooth, CD player, central locking, head-up display, MP3 interface, navigation system, electric side mirror, sports package, panoramic roof, alloy wheels, and parking sensors. The 'Seller's Notes' section contains a short paragraph of placeholder text. On the right side, there is a sidebar for 'Brooklyn Prime Motors' featuring a logo, a star rating of 4.5 stars from 2 reviews, contact information (phone 888-188-8882, email marat.m@stylemix.net), and a 'CONTACT DEALER' form for sending a message. Below the main listing, there are 'SIMILAR LISTING' sections for a Used 2015 BMW 3 Series, New 2015 Toyota Camry, and Used 1990 Toyota Avalon.

Motors – Car Dealership Business Wordpress Theme

Powered by StylemixThemes

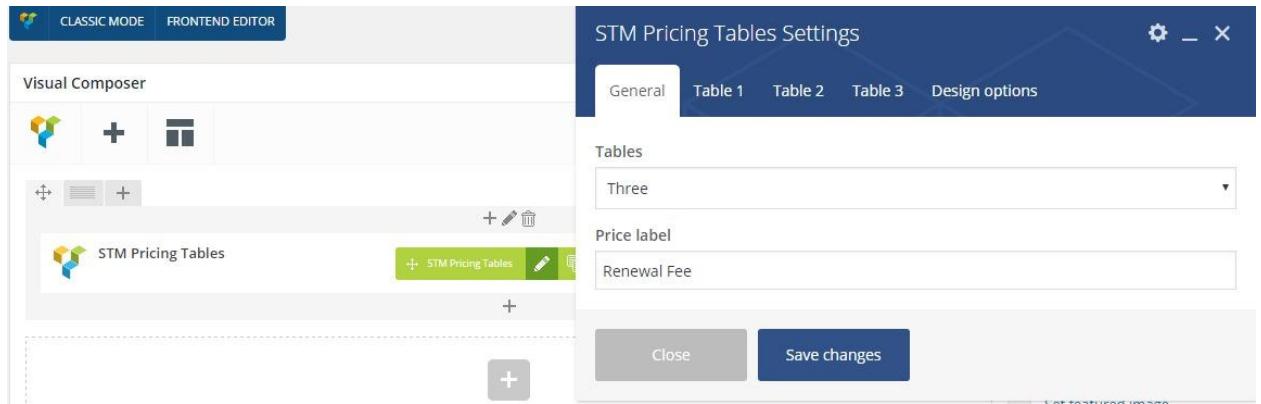

www.stylemixthemes.com

4.3. Pricing

Pricing tables – is one of the new features of the Listing Layout. You can built Pricing page using VC Editor and additional VC shortcodes.

Month	Yearly	PERSONAL	DEALER	DEALER	POPULAR
Renewal Fee		FREE	\$9/month	\$15/month	
Active Listing Quota		–	60	300	
Listing Period		2	Unlimited	Unlimited	
Premium Listing Credit		–	✓	✓	
Free Classified Credit		✓	✓	✓	
Premium Classified Credit		0	100	400	
Article Quota		–	✓	✓	
Premium Article Credit		✓	✓	✓	
Multiple Selection		3	10	50	
Live Updates		No	✓	Yes	
GET BUSINESS					

You can and setup **STM Pricing Tables** module in your pages in order to display Pricing tables. It's possible to select Tables count (1, 2 or three) and set Price Label under General tab of STM Pricing Tables module settings.

Under Table tabs it's possible to set Pricing section Title, Periods, Features, Label, extra Link and its options. You need to set these fields for each Tables under respectively tabs.

Motors – Car Dealership Business Wordpress Theme

Powered by StylemixThemes

www.stylemixthemes.com

The screenshot shows the 'STM Pricing Tables Settings' modal window. At the top, there are tabs for 'General', 'Table 1', 'Table 2', 'Table 3', and 'Design options'. The 'Table 1' tab is selected. The main area contains settings for 'Title' (set to 'Free'), 'Period' (with options for 'Month' and 'Yearly'), and 'Features' (a list of six items: 'Active Listing Quota', 'Listing Period', 'Premium Listing Credit', 'Free Classified Credit', 'Premium Classified Credit', and 'Article Quota'). Each feature item has a delete icon. At the bottom are 'Close' and 'Save changes' buttons.

4.4. Listing Users

There are 3 types of users in Listing version of the theme. They are:

- Administrator
- STM Dealer
- Simple user

You need to add STM User/Dealer login/register module in the content in order to create Listing authorization page

The screenshot shows the 'Add Element' sidebar with a search bar at the top. Below it is a navigation menu with links: All, Content, Structure, WordPress Widgets, STM, STM Single Car, STM Widgets, STM Post Partials, STM Service Layout, and an ellipsis. A grid of modules is shown below, with one module, 'STM User/Dealer login/register', highlighted with a blue border.

www.stylemixthemes.com

Users can easily add/modify their Adds using comfortable and understandable panel:

The screenshot shows a step-by-step form for adding a vehicle listing. It includes sections for Car Details, Select Your Car Features, Upload photo, Add Videos, Enter Seller's notes, and Set Your Asking Price.

Car Details (Step 1): Fields include Condition (Certified Used), Make (BMW), Model (3 Series), Year (2015), Body (Sedan), Mileage (18000), Fuel type (Gasoline), Engine (2000), Transmission (Automatic), Drive (RWD), Exterior Color (Deep Blue Pearl), Interior Color (Jet Black), Registered (Enter date), VIN (5YFBURH6FP217), History (Vehicle History Report), and Location (AUTOMEGA MOTORS, Meso).

Select Your Car Features (Step 2): Categories include Comfort, Entertainment, Safety, Seats, Windows, and Other. Options like A/C, Backup Camera, Cruise Control, Navigation, Power Locks, and Power Steering are listed with checkboxes.

Upload photo (Step 3): A large preview image of a blue BMW sedan is shown with a camera icon overlay. Below it are five smaller thumbnail images. Text indicates a user can upload up to 5 photos, and a dealer can upload up to 10 photos. A note specifies a recommended image resolution of 800 x 470 px or higher.

Add Videos (Step 4): A video link field contains "https://www.youtube.com/embed/UT_qpr1Emd". A note says if videos aren't available, users can add them later.

Enter Seller's notes (Step 5): A text area for seller notes is present, with a note about adding template phrases.

Set Your Asking Price (Step 6): A price input field shows "35000". A note explains how to determine a competitive price by comparing vehicle information and mileage to similar vehicles for sale by dealers and private sellers in the area.

User Profile (Bottom): Shows a profile picture of Linda Garret, a private seller, with a "Edit Ads" button.

Motors – Car Dealership Business Wordpress Theme

Powered by StylemixThemes

www.stylemixthemes.com

Simple users can send a request to Admin in order to Become a Dealer.

The screenshot shows the 'Become a dealer' page. On the left, there's a sidebar for 'admin' (Private Seller) with options like 'BECOME A DEALER', 'MY INVENTORY', 'MY FAVORITES', and 'PROFILE SETTINGS'. It also shows the seller's email: 'bot@stylemixthemes.com'. On the right, the main form has a title 'Become a dealer'. It includes a logo upload section ('Upload your company logo*') with a placeholder image and a 'CHOOSE FILE' button. Below that is a 'Main Information' section with fields for 'Company name*' (placeholder: 'Enter Company Name'), 'License number*' (placeholder: 'Enter License number'), 'Location*' (placeholder: 'Enter Your location'), and 'Sales Hours' (placeholder: 'Enter Your sales hours'). There's also a 'Notes' text area and a green 'SUBMIT FOR REVIEW' button at the bottom.

After completing the submission User will be redirected to the Paypal system, you have setup your Paypal settings under **Appearance -> Customize -> Listing -> Paypal options**.

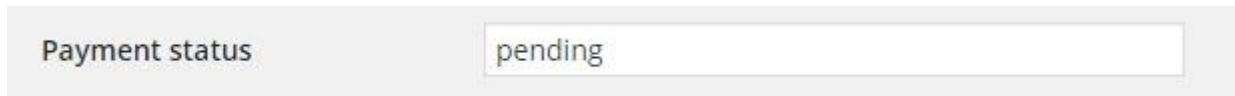

This screenshot shows the 'Paypal options' settings page. At the top, there's a 'Saved' button. The page includes fields for 'Currency' (set to 'USD'), 'Paypal Email' (empty), 'Paypal mode' (set to 'Sandbox'), and 'Membership price' (empty). The URL for this page is 'Customizing > Listing > Paypal options'.

Motors – Car Dealership Business Wordpress Theme

Powered by StylemixThemes

www.stylemixthemes.com

When User sends the request for becoming a Dealer, User and Admin will receive a notification and user's Payment status will be a **pending** in the user page under **Users** menu.

After completing the payment, Admin will be notified automatically about it and user's Payment status will be **completed**. Then Admin can easily set/change the user role to **Dealer**.

Also you can setup main settings for users under **Appearance -> Customize -> Listing -> User/Dealer options**:

A screenshot of the WordPress Customizer interface, specifically the "User/Dealer options" section. The top bar shows "Customizing > Listing > User/Dealer options" and has a "Saved" button. The panel contains several dropdown menus and radio buttons:

- Login/Registration page:** Set to "Login/Register".
Choose page for login User/Dealer
- Default user sidebar:** Set to "User sidebar".
Choose page for Default user sidebar
- User Sidebar Position:** Radio buttons for "Left" and "Right", with "Right" selected.
- Default dealer sidebar:** Set to "Dealer sidebar".
Choose page for Default dealer sidebar
- Dealer Sidebar Position:** Radio buttons for "Left" and "Right", with "Right" selected.
- Add a car page:** Set to "Add a Car".
Add a car page

A "Collapse" button is located at the bottom right of the panel.

Motors – Car Dealership Business Wordpress Theme

Powered by StylemixThemes

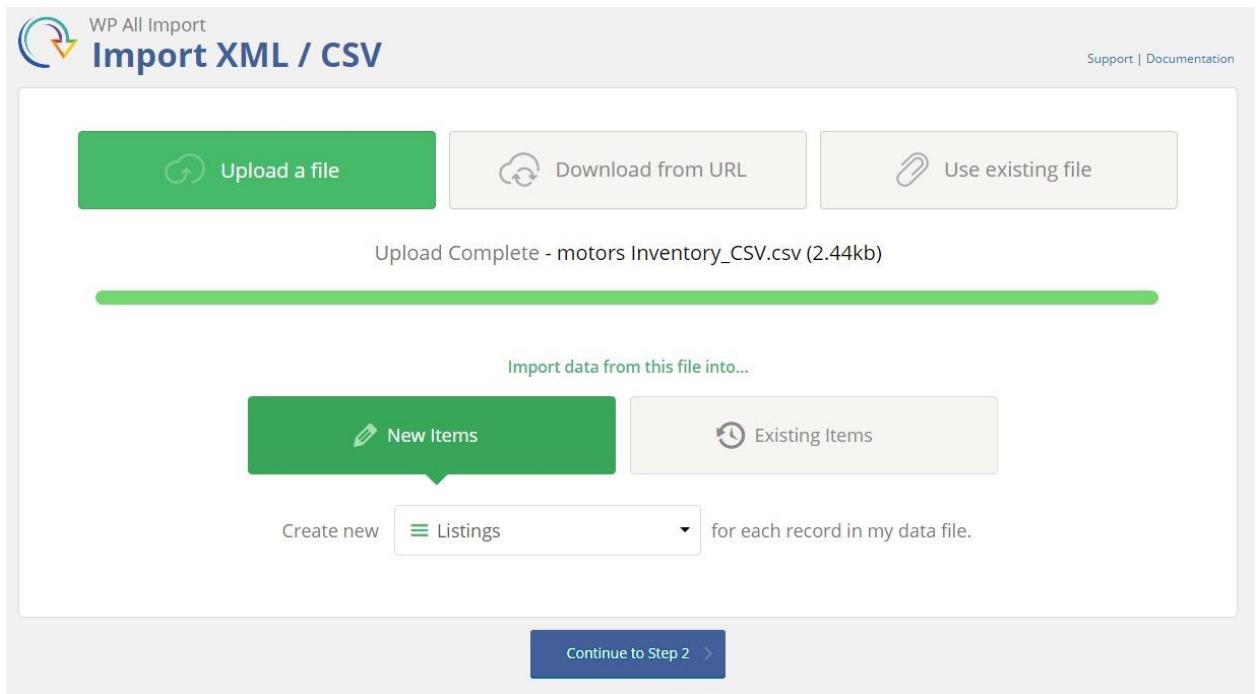

www.stylemixthemes.com

4.5. WP All Import plugin compatibility

We have included this feature according to our clients' needs. If you want to use WP All Import plugin for importing your Listings, you need to just install and activate **STM WP All Import Addon** plugin, which is included in the main theme package.

This plugin doesn't need to set up any settings/configurations.

Then you can go to **All Import -> New Import** and upload your own import file.

At the 3rd Step STM Addon plugin automatically creates needed fields under STM Listing Add-On section and you can drag your fields suitably inputs.

Motors – Car Dealership Business Wordpress Theme

Powered by StylemixThemes

www.stylemixthemes.com

The screenshot shows the 'Import XML / CSV' screen of the WP All Import plugin. On the right, a preview window displays a car listing with fields like 'post_title', 'post_excerpt', 'post_status', 'make', 'model', 'year', 'price', 'milege', and 'featureimage'. Below the preview, there's a 'Preview' button. On the left, there are sections for 'Title & Content' (with a rich text editor), 'Advanced Options' (with tabs for 'Images', 'Image Options', and 'SEO & Advanced Options'), and 'Custom Fields', 'Taxonomies, Categories, Tags', 'Other Listings Options', and 'Function Editor'. At the bottom, there are buttons for 'Save settings as a template', 'Load Template...', 'Back to Step 2', and 'Continue to Step 4'.

Motors – Car Dealership Business Wordpress Theme

Powered by StylemixThemes

www.stylemixthemes.com

4.6. Pricing Plans

As it was mentioned above, there are three types of payment features for Users, which can be set up under Appearance -> Customize -> Listing -> User/Dealer Options:

- Default User limits;
- Default Dealer limits;
- **Enable Pricing Plans (Woocommerce);**

PS: It needs to select correct Pricing link (page).

Pricing plans works with extra plugin – **Subscriptio** (<https://codecanyon.net/item/subscriptio-woocommerce-subscriptions/8754068>). This plugin is included in the theme package with Extended license.

After successfully installing the plugin you can create Subscription products for Pricing plans:

The screenshot shows the WooCommerce Product Editor. In the top right, under 'Product Data', the 'Subscription' checkbox is checked and highlighted with a red box. Below this, the 'Pricing Plan Options' section is expanded, showing fields for 'Price Plan Cars Quota' (6), 'Price Plan Car Images Quota' (3), and 'Price Plan User Role' (User). A red arrow points to the 'Pricing Plan Options' section.

Then you can select the subscription product for **Pricing Table** module

The screenshot shows the STM Pricing Tables Settings modal. In the bottom right, there is a section labeled 'Plan add to cart (Plan ID)' with a dropdown menu containing the option 'Trial'. This dropdown is highlighted with a red box.

Motors – Car Dealership Business Wordpress Theme

Powered by StylemixThemes

www.stylemixthemes.com

Users change/upgrade their plans via simple Woocommerce **Checkout** progress.

The screenshot shows the homepage of the Motors theme. On the left, there's a sidebar for a user named Linda Garret, who is a private seller. The sidebar includes links for 'MY INVENTORY', 'MY FAVORITES', 'PROFILE SETTINGS', and contact information: phone number (894) 692-49-22 and email timur@stylemix.net. A red box highlights a 'Current Plan FREE' section with a green 'UPGRADE PLAN' button. At the top right, there are navigation links for HOME, INVENTORY, PRICING, BLOG, and USER, along with a clock icon and a profile picture. Below the sidebar, the main content area is titled 'My Inventory' and displays three car listings:

- New Toyota Camry** - \$25 000. Mileage: 100 mi, Fuel Type: Hybrid, Engine: 2000. Personal Seller: Linda Garret, (894) 692-49-22. Call Us button.
- New Kia Soul** - \$25 000. Mileage: 100 mi, Fuel Type: LPG Autogas, Engine: 1600. Personal Seller: Linda Garret, (894) 692-49-22. Call Us button.
- Used Kia Rio** - \$15 000. Mileage: 5000 mi, Fuel Type: Ethanol, Engine: 1500.

Sort by dropdown menu: All.

This screenshot is identical to the one above, showing the homepage of the Motors theme. The only difference is in the 'Current Plan' section of the sidebar, which now says 'TRIAL' instead of 'FREE'. It also includes a 'Subscription renewal 18:56:53' message and a green 'GET NEW PLAN' button. The rest of the page, including the car inventory list and navigation, remains the same.

Again, thank you for purchasing this theme!

If you have any questions that are beyond the scope of this document, feel free to pose them in the dedicated support forum at www.stylemixthemes.com
